Mini Modified Tractor Pull

Saturday August 12th 4PM to 6PM first relay

8PM to 10PM second relay (approximate times)

Contest Arena

The Mini modified tractor pull is a competition where participants pull a weight-transfer sled with their tractors that progressively gets heavier the further they go down the track. These highly modified tractors are divided into big block and small block classes depending on the engine size. Mini modifieds are small yet powerful tractors make over 600 horsepower and put on quite a show down the 300-foot clay track.
